

# LAB 05 - 29796

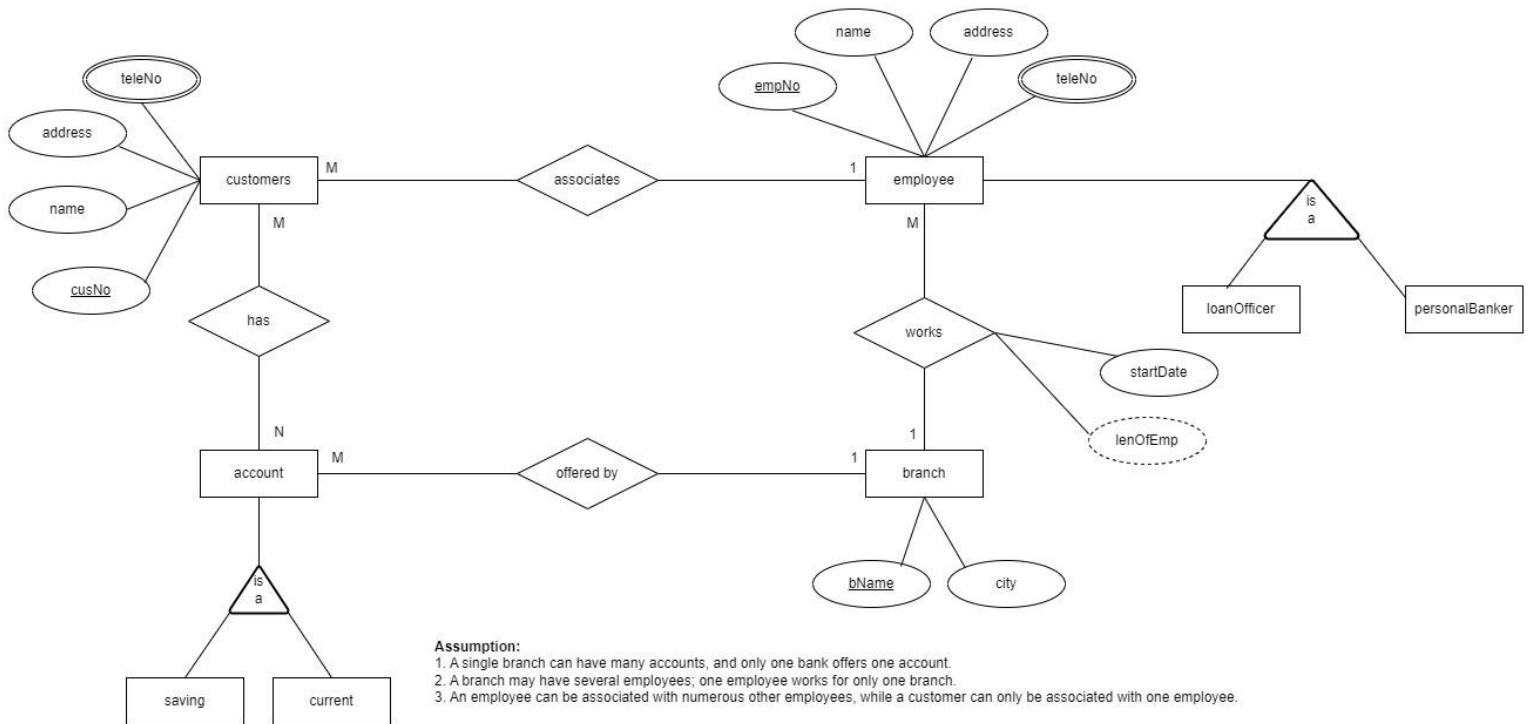

**Q1**

**Assumption:**

1. TourLocation has been assumed as a multi-value attribute.

## Q2

### Assumption:

2. A single branch can have many accounts, and only one bank offers one account.
3. A branch may have several employees; one employee works for only one branch.
4. An employee can be associated with numerous other employees, while a customer can only be associated with one employee.
